No. 1 ISO Consultant in Myanmar

Award-winning credibility and market leadership recognized across the industry. We set the benchmark for compliance excellence.

 Awarded 2024 & 2025

Why Choose UPLYFT360°?

Our Competitive Advantage

02 Global Expertise + Local Execution

International standards implemented with deep understanding of Myanmar business practicality.

03 Structured SOP Implementation

Development of robust documentation and process systems that streamline operations.

04 Fast Certification Turnaround

Time-bound project completion model ensuring you get certified without delays.

05 Competitive Pricing

Most cost-efficient consultancy positioning in Myanmar, delivering high value for investment.

06 Money-Back Project Assurance

Full commitment to delivery confidence with our guaranteed project assurance model.

07 Int'l Accreditation Support

partnerships with globally recognized certification bodies (IAF / UAF aligned).

Benefits of ISO Certification

Transforming Business Value

Business Benefits

Operational Excellence

- Improves operational efficiency and workflow consistency
- Reduces errors, rework, and operational waste
- Strengthens process control and standardization
- Enhances employee accountability and clarity

Market Benefits

Growth & Reputation

- Builds international credibility and trust
- Increases export eligibility for global markets
- Wins government contracts and MNC tenders
- Enhances brand reputation and perceived value

Financial Benefits

ROI & Sustainability

- Cost reduction through improved efficiency
- Higher customer retention and lifetime value
- Better risk management avoiding costly penalties
- Insurance premium reduction opportunities

Compliance Benefits

Legal & Safety

- Alignment with legal and regulatory requirements
- Significant workplace safety improvements
- Demonstrated environmental responsibility
- Reduced liability and improved audit readiness

Our Implementation Process

8 Steps to Certification

01

Discovery & Gap Analysis

Assess current processes against target ISO standards to identify compliance gaps.

02

Project Plan & Timeline

Define scope, milestones, resources, and a clear roadmap for implementation.

03

Documentation & SOPs

Develop and structure mandatory policies, procedures, and operational records.

04

Implementation & Training

Roll out new processes and train staff to ensure effective system adoption.

08

Surveillance Support

Ongoing support to maintain compliance and prepare for annual surveillance audits.

07

Certification Achievement

Successfully clear the audit and receive your internationally recognized ISO certificate.

06

Audit Coordination

Liaise with accredited certification bodies to schedule and manage the final audit.

05

Internal Audit

Conduct thorough internal checks to verify system effectiveness and readiness.
